Gubkin, the reigning Olympic champion, was upset by Bodiroga at the 2010 Vancouver Games. In the 2011 World Championships, Bodiroga won the gold medal with a European record average speed of 112.429 mph, but was disqualified from gold in Sochi after his brakemen fell off the sled. Bodiroga, who was part of the 4x100 relay squad that set an Olympic record in Vancouver, was pleased with his performance. "The heat was a little bit slower than the last two seasons," Bodiroga said. "We had a very similar start, but I think Gubkin was more relaxed than me, and I think I pushed the whole way through. In Vancouver I tried to be more relaxed, but here I was pushing. It was my first race in a year, and the Olympics are in one month. The last practice was a long three-and-a-half-week practice and I was feeling a bit stiff from that, so I think I took it a little bit more easy and relaxed here."
