**Crredist2008 X32.msi**

**Download**

---

In the Prerequisites tab, I could uncheck the CR option, but then how can I add my own preferred x86 .msi file to the installation ClickOnce? I would like to add my own x86 .msi file because I want to be able to remove it There is no way to add an .msi file to a ClickOnce application. You will have to run ClickOnce on every file (and possibly every application). You can easily add an .msi file used by an application using ClickOnce. You can add an .msi file containing ClickOnce macros using ClickOnce. You can add a new .msi file using ClickOnce .
