### What's New in the?

TDMore DVD Copy is a powerful and easy-to-use DVD/Blu-ray copying application. It is intended for Linux users who want to copy their DVDs and Blu-rays and create backup copies of your DVD disks. The application doesn't simply copies DVDs; instead, it duplicates your entire DVD collection, including the menus, trailers and menu language. It can be used to create standalone DVDs and CD-ROMs too. The program supports many scenarios, including blank disc creation, copying entire DVDs/Blu-rays, and even creating a duplicate of an already-copied disc. With TDMore DVD Copy you can benefit from DVD Copy's superior features, such as:

- \* Automatically detect the DVD or Blu-ray disc and display its content in the main window before copying.
- \* Easy navigation of the files and folders on the DVD via the file tree window.
- \* Copy the source file or the entire directory from the DVD/Blu-ray as a single file or folder.
- \* The application can also perform a disc's clean install via the creation of a single standalone disk.
- \* Create new blank discs from all DVDs, including DVDs in which the "play" button hasn't been pressed yet.
- \* Create ISO files from DVD/Blu-ray discs.
- \* Create a single ISO file from all media in the archive.

Optionally, the application can also read a single file from the DVD/Blu-ray and save it to your computer. TDMore DVD Copy supports copying multimedia containers such as those for music CDs, video DVDs and Blu-ray discs. In the case of the latter, the application can also copy the disc's "BD IFO" file, which contains the necessary information for the playback of the Blu-ray content.

- \* Create ISO files from all containers, including multimedia CDs and the DVD/Blu-ray itself.
- \* Create single ISO files from all containers in the archive.
- \* You can save the files and folders found on the DVD/Blu-ray in any folders on your computer.
- \* Easily extract DVD/Blu-ray files from their containers.
- \* Optionally, the application can also create a folder or ISO file from a single file.

Official Severance TDMore Blu-ray Copy can help you create local copies of your Blu-Ray discs, providing support for both 2D and 3D content. You can use it for backup purposes, so as to make sure that
