Welcome to the world of Gar! Take on the role of one of the 20 different characters to explore the beautifully hand-drawn, retro-styled world of Gar. The game takes place in a fantasy setting similar to the classic Final Fantasy games, with powerful monsters to take on, epic boss battles, expansive areas to explore, many allies to make, and lots of replayability!

Reviews: "Extremely deep and deep with multiple possible outcomes every time you fight. Each hero has his own playstyle, with plenty of approaches to deal with each enemy." -Gamezebo "Crimson Sword Saga is an awesome game, that is addictive and hard but that's what makes it fun for us, the challenge of getting through a dungeon is an amazing experience." -Sekai Project "A solid RPG that only comes with a short story. Everything about it is well made from the small details to the complex battle system. It's worth your time to give the game a try." -RPG Site "An exciting combination of learning curve, strategy, and pretty combat. Highly recommended!" -RPG Site Download and Play Crimson Sword Saga: The Peloran Wars Now!!! record is played back. For example, suppose that a record is played back at 20 times real-time speed. During the time that the playback is stopped, an A/D converter converts the analog signal to a digital signal and saves it in memory. Subsequently, when the playback is resumed, the digital signal is read from memory to an A/D converter and converted to analog form. At the next stoppage of the playback, the data is again converted from digital to analog form, etc. Thus, the data conversion is repeatedly carried out 20 times in relation to every single analog signal input to the A/D converter. When there is a substantial difference between each of the first and the last analog signals, the playback has recorded a noticeable difference in a human hearing range, and if the elapsed time is long enough the human will hear noise. According to another convention, a certain number of frame control data may be recorded at a particular time and particular locations on the magnetic tape in such

What's new:

of the Gorgon Emerald Chapter 15: The Battle of the XII Deities Arrgggghhhh! The acrid stench of burnt flesh and stale blood filled the corridor. None of the Gorgons noticed the first Avren of Horus that entered their dead compartment under the Gods Gate... but the Gorgons did notice the other Avren. Three of them... one male of 70 years and two females of 60 and 55. From the smell of them it was becoming increasingly clear that they had been fighting for their lives, and not for the control over the Emerald. One of the females had tried to fight back, only to be viciously beaten to death by one of the Stygians. The other female, had no hope left in her and she had simply stood there and resigned herself to whatever fate awaited her. The male, however, had gotten away, evidently with the Emerald. The Elder Avren, known for his tactical ingenuity, quickly recognized an opportunity to make a grab for the great emerald and be the one to control it... if he didn't hesitate. He went to an axe protruding under a wall covered with sharpened obsidian tiles. He lifted the axe, only a hand-span away from the still unconscious Gorgon... At the last moment, he pulled back, as he heard in the distance a group of Gorgons approaching. He quickly went to the other side of the corridor, as he watched in his crystal ball what was happening to his female companions. There was blood everywhere... two bodies were far enough away not to be in immediate danger, but as they approached they would not be safe for long if the Gorgons detected the fresh blood on their divine robes. One of the female Gorgons had a high-pitched cry of surprise and Alvaros heard it clearly. He quickly ran away from the blood, disappearing into the tunnel he had left some minutes ago. When the bloodthirsty Gorgons left this compartment, they would see their reflection on the obsidian tiles. They would see it as evidence that someone had tried to escape. However, it would also be the first clue that someone had been here. The Elder Avren would note that much. And he would also remember his most important goal... obtain the emerald. However, before he could make his move the Gorgons heard another cry, an unknown... human cry. They were frightened
