The sheer number of ways you can die make the game highly frustrating to play, as there is no way of knowing what's going to happen next. The occasional moments where the game goes from overly punishing to overly easy are a nuisance, and the problem with the nature of the game as a whole is that the bright, colourful environments and character designs do little to keep you going through the rough patches.4/10 Ars TechnicaThere's a lot of fun to be had, but if you're a fan of platform games then you'll miss out on all the laughs, joy and pure excitement. You'll be going through it for the story, not the gameplay.7/10 GamesIndustry.bizMonobot is definitely not a game for everyone, as you'll find yourself falling into the pits and slaloming across crevices, for that is what the game is all about, and while it's a challenging experience, it's a rewarding one, and one that will keep you occupied for a good while, as not all of the areas are as bright and happy as the first. And the soundtrack is incredible, so it's a great game, but there are better ones out there, so you'd be better off spending your money elsewhere.5/10 148AppsI'm not going to lie. Monobot is a tough game. It's challenging and the puzzles are tough. What makes the game so rewarding and entertaining, however, is how it does this with a healthy dose of gamey humor, some good soundtrack, and tons of atmosphere. If you've got the patience to make it through it all, Monobot is the game for you.8/10 Disruptor BeamAlthough it would have been interesting to see where this game would have gone if they'd never changed the first of the objectives, Monobot can be described as a metroidvania in the classic sense of the genre.8/10 HeyNintendoNo man, that just ain't the way you spell metroidvania. The lack of knowledge of the genre is evident in his reviews, but it's evident in his own game, too.11/10 The GamerThe first part of this game is slow and drawn out, as you try to find your way through an overly long introduction. The second part is a fast paced platforming chase across a dark, eerie and creepy world. I'm a bit disappointed as well, because I feel like this would have been a rather fantastic game, if it was made a

**What's new in Inscryption Soundtrack:**

Camp will be dismantled and shall be used to erect a border wall on behalf of Rick and Mark Guandique to divide the United States in two along the same racist and anti-humanitarian lines that allowed the Dakota Access Pipeline to exist a bloody site of cattle butchery and an infant village destroyed. William Ayers is a military decorated Vietnam War veteran and former trial attorney from Illinois. He is now the first candidate out of over a dozen people to publicly admit that he has committed "terrorist acts." His clean criminal record denotes that he is the perfect candidate for "terrorism," and can now help in the Presidential campaign for Tim Kaine, Hillary Clinton, Mike Pence and John Kasich. Bill Ayers, August 14, 2015 Originally published at Grassroots and Grassroots Pressure Is Key The historic moment is upon us at the Standing Rock Sioux (Dakota Access) #NoDAPL camp in Cannonball, North Dakota. The scene was reminiscent of the '60s, when Black Panthers, Students for a Democratic Society, Black Liberation Army, and The Weathermen coordinated bombings, assassinations and bank robberies, in the name of an emerging Third World movement. During this exciting historical time, my hero and dear friend Bernardine Dohrn from the Weathermen sat with me for a special meeting that lasted from 4 to 10 a.m. at her Million Jobs Now store and headquarters at 3915 W. Sunset Blvd., Los Angeles, California (which remains a legacy of the visionary revolutionary organization). Would the media be able to keep its collective mouth shut and let this important history unfold, or would the Pinkerton thugs who are protecting the pipeline attempt to silence me and others who will speak out on this historic occasion? The historical moment unfolds in three phases that could not be more critical. In Phase I: All players must unite against the corporate forces who are on a mission to save their bottom line through the line of the Standing Rock Sioux. Phase II: The nation will witness a historic inter-tribal alliance between the Native Americans who face the greatest threat of water contamination and a world-wide coalition of internationalists, feminists, culture warriors, members of the Black Liberation Army, Black Panthers, Indigenous Mexicans, and others who are united in defense of the natural environment and the very first people, the indigenous people of Turtle Island. Phase III: The Black Panthers reach the White House and initiate an investigation of the Clinton-Obama criminals and imperialists who are moving the
